

Hunter Phillips

AI Solutions Architect | 931.267.8001 | hkphillips42@gmail.com

👤 Profile

Solutions Architect with a track record of leading enterprise modernization and driving user-centric automation across federal and commercial sectors. Skilled in modern web and AI frameworks, with a passion for scalable design and measurable business impact. Tier 4 Public Trust.

🏢 Employment History

Technical Architect at IntegrityPro Consulting

November 2022 — July 2026

Leading AI product and tooling adoption

- Designed an agent framework to generate application files directly from user stories via elicitation, instance analysis, and spec-driven development
- Created an agentic RFI response workflow that orchestrates technical research, capability mapping, and response drafting, replacing a multi-day manual process
- Rebuilt an application intake system using a guided form UX, generating a 2.7x increase in student submissions and a 70% reduction in staff workload
- Recommended portal design, catalog taxonomy, and automation enhancements to an ESC portal that saw a 40% reduction in monthly reported incidents
- Oversaw a Software Asset Management implementation and platform upgrade, enabling a client to uncover nearly \$150K in over-licensed expenses
- Lead developer of an asset tracking system for the US Forest Service, managing over \$30B in inventory with geospatial mapping and integrated field surveys
- Conducted senior-level interviews and new-hire technical training

Team Lead at GovCIO

May 2021 — November 2022

Guided the program's first team to employ a React microservice architecture

- Co-developed an arrest reporting tool awarded the DHS Secretary's Award for Innovation, unifying previously siloed law enforcement systems
- Deployed an ETL integration used to synchronize millions of records in ServiceNow to external reporting software, supporting both real-time and batched updates
- Implemented a nearest-location search and calendar UI for an appointment scheduler, eliminating 8+ hour queue lines for thousands of noncitizens a month

Senior Technical Consultant at Finite Partners

July 2019 — May 2021

Technical consulting & development for Fortune 500 firms & USDOD

- Promoted to lead our largest defense contract, enabling systems engineers to plan, configure, and provision satellite communications equipment
- Led technical demonstrations and walkthroughs for executive stakeholders
- Earned company's highest utilization rate for 7 consecutive quarters

Solutions Engineer at Brookdale Senior Living

July 2018 — July 2019

Overhauled a service portal generating 2000 additional self-service requests per month
